## **PROBLEM STATEMENT:**

Many organizations have their own system to record their income and expenses, which they feel is the main key point of their business progress. It is good habit for a person to record daily expenses and earning, but due to unawareness and lack of proper applications to suit their privacy, people are using traditional note keeping methods to track expense. Due to lack of a complete tracking system, there is a constant overload to depend on the daily entry of the expenditure and total estimation till the end of the month.

Who does the problem affect?	People getting regular wages
What is the issue?	The paper-based expense tracker system does not provide the user portability. Existing system only used on paper-based records and unable to update anywhere expenses done and unable to update the location of the expense details.
When does the issue occurs?	When the digits could not be recognized correctly. When the transactions are not successful. When the elder people are unable to understand the smaller handwritten digits. When the paper-based expense tracker records are subjected to fire accident, flood, etc.
Where is the issue occurring?	The issue occurs when the person is unable to track his income and expenditure.
Why is it important that we fix the problem?	By solving this issue, those people getting regular wages can track their expenses and avoid unwanted expenses.
